Lawunn Khaing

Software Developer

Python | Kotlin | Fullstack

I am a software developer with a strong foundation in mobile, automation and fullstack development, specializing in Kotlin, Python and modern backend technologies. I build secure, scalable, and intuitive solutions that connect hardware with smart user interfaces. With hands-on experience across automation, embedded Linux, mobile, cloud, and DevOps tools, I'm passionate about creating seamless user experiences.
Experience

Health Revolution Oy – Technical Developer Intern

May 2025 – July 2025 (Helsinki, Finland)

- Maintained and improved a commercial Android app using **Kotlin and Java.**
- Proposed and planned user experience updates for the app's Tips page to enhance user engagement and feedback

Swipework - Project Intern (Mobile team)

October 2024 - January 2025 (Amsterdam, Netherlands)

Contributed to UI development and improved security, and maintainability.
- Developed a job-seeking app using **Flutter & Dart**.
- Integrated REST APIs for fetching job listings and company videos.
- Ensured secure authentication using **Firebase Authentication & OAuth.**

Selamatic Oy - Trainee (Server team)

May 2024 - August 2024 (Mikkeli, Finland)

I worked on secure server-side application development, focusing on data security, real-time analytics, and system performance optimization
- Developed server-side applications using **C#** and **node.js** for client-server communication.
- Configured **InfluxDB** for time-series data storage and real-time analytics and used Grafana dashboards to visualize
- Deployed services using **Docker** for optimized performance.

Certificates

Cisco Networking Academy

January 2023 - December 2024

I developed expertise in network configuration, management, and security while integrating redundant routing protocols, VPN solutions, and automated security measures like IPS, IDS, and endpoint protection.

- Emerging Technologies Workshop - Model Driven Programmability
- Networking Essentials
- Enterprise Networking, Security, and Automation (CCNAv7)
- Switching, Routing, and Wireless Essentials (CCNAv7)
- Introduction to Networks (CCNAv7)

Education

Bachelor of Engineering (IT)

South-Eastern Finland University of Applied Sciences, Mikkeli, Finland (Aug 2022 - Dec 2025)

Projects

More than 20 projects

My GitHub features over 20 well documented projects built with Kotlin, Flutter, React, Node.js, and other modern technologies.
