Lawunn Khaing
Software Developer

Fullstack | Kotlin | Fluter

IT student specializing in mobile development (Flutter/Kotlin) with hands-on experience in secure networking and full-stack development. Skilled in building scalable applications, optimizing client-server interactions, and integrating cloud-based solutions. Experienced in delivering efficient, high-performance software with a strong focus on security and user experience.

Experience

Project Intern (Mobile team) – Swipework

October 2024 - January 2025, Amsterdam, Netherlands.

Worked on developing a job-seeking mobile application, focusing on performance, usability, and seamless backend integration.

- Built and enhanced a Flutter-based job-seeking app using Dart.
- Optimized app performance through efficient state management and API handling.
- Integrated third-party services and backend APIs to improve app functionality.
- Collaborated with designers and developers to refine UI/UX for a seamless user experience.

Trainee (Server team) – Selamatic Oy

May 2024 - Aug 2024, Mikkeli, Finland.

Contributed to server-side architecture, ensuring security, stability, and efficient data flow.

- Configured and maintained server-side applications to enhance stability and security.
- Designed and implemented encryption protocols for secure data transmission.
- Developed and optimized database structures to improve client-server performance.
- Assisted in troubleshooting and resolving backend issues to ensure system reliability.

Certificates

Cisco Networking Academy

April 2023 — April 2024

I developed expertise in network configuration, management, and security while integrating redundant routing protocols, firewalls, VPN solutions, and automated security measures like IPS, IDS, and endpoint protection.

- Networking Essentials
- Switching, Routing, and Wireless Essentials (CCNAv7)
- Enterprise Networking, Security, and Automation (CCNAv7)
- Emerging Technologies Workshop - Model Driven Programmability

Education

Bachelor of Engineering (Information Technology)

South-Eastern Finland University of Applied Sciences, Mikkeli, Finland (Aug 2022 – present)

Main Skills

- **Mobile Development:**
  Flutter, Kotlin, Dart, Firebase
- **Backend & APIs:**
  Node.js, Golang, Express.js, REST APIs
- **Frontend:**
  React.js, Next.js, TailwindCSS, TypeScript
- **Databases & Cloud:**
  Firestore, MongoDB, SQL, AWS, Firebase
- **DevOps & Tools:**
  Docker, CI/CD, Git, Linux

Projects

My GitHub features over 20 well-documented projects built with Kotlin, Flutter, React, Node.js, etc.

Portfolio

Fitness Mobile Application, Movie Discovery App, Activities Task Manager (See it in detail in my portfolio)
