👤 PROFILE

Software/AI Engineer with a strong foundation in building RESTful APIs, automating workflows, and integrating AI solutions. Have hands-on experience in Kotlin, Python, API architecture, and real-time observability, I thrive on taking end-to-end ownership to translate complex business requirements into meaningful user experiences.

💼 EXPERIENCE

People Cloud Oy, API Developer 09/2025 – 06/2026 | Finland

- Building and documenting RESTful APIs for a commercial B2B SaaS platform to enhance data transfer and integrated with cloud-native application architectures.
- Integrated automated advanced AI agent technologies using N8N, directly aligning with innovative tech strategies.

Health Revolution Oy, Software Developer 05/2025 – 07/2025 | Helsinki, Finland

- Maintained an Android app (Kotlin, Java) and manual testing of UX updates to ensure bug-free user engagement and application quality.

Swipework, Project Intern (Mobile team) 10/2024 – 01/2025 | Amsterdam, Netherlands

- Developed a Flutter application, testing API integrations and ensuring secure, seamless authentication flows with Firebase & OAuth.

Selamatic Oy, Networking Trainee 05/2024 – 08/2024 | Mikkeli, Finland

- Configured servers, deployed services using Docker, and set up real-time analytics monitoring (InfluxDB/Grafana) to ensure system reliability

🎓 EDUCATION

Aalto University, Master of Science (Information Networks) 08/2026 – 2028 | Espoo, Finland

South-Eastern Finland University of Applied Sciences, 08/2022 – 05/2026 | Mikkeli, Finland

Bachelor of Engineering (Information Technology)

- Graduated with Excellent Academic (GPA: 4.49/5.0)
- Thesis: Design and Documentation of a Public REST API (Grade: 5/5)

🧠 SKILLS

Frontend & Mobile Development (TypeScript, React, Flutter, Java, Kotlin, Mobile App UX) |

Backend & Infrastructure (Java/Kotlin Object-Oriented Programming, Spring Boot Ecosystem, REST API

Development, Go, Node.js, PHP) | **Testing, Automation & AI Tools** (Unit Testing, Docker, n8n, Flowise AI, Prompt engineering, GitHub Actions, CI/CD)

📜 CERTIFICATES

Cisco Networking Academy (Networking Essentials • Network Security • Emerging Technologies Workshop - Model Driven Programmability • Introduction to Networks (CCNAv7) • Enterprise Networking, Security, and Automation(CCNAv7) • Switching, Routing, and Wireless Essentials (CCNAv7))

📁 PROJECTS

Personal Projects

- Fitness App (Mobile Kotlin)
- Weather Station (IoT ESP32 + Node.js)
- Smart Greenhouse (.NET)
- Recipe Management System (Python)

More than 20 projects

My GitHub features over 20 projects built with Kotlin, Flutter, React, Node.js, and other modern technologies.
